

FX SERIES FELLING HEADS

- Designed to be rugged and give a long dependable service life
- Optimized jaw shape for excellent multiple stem grip and massive holding power to reduce tree slip
- Super strong and simple saw assembly won't let you down
- Hardened steel pins and bushes for maximum durability
- Heavy duty centre joint offers extended trouble free life
- Built entirely from high tensile steel
- Full hydraulic control system

The DUXSON FELLING HEAD has brought new levels of performance and reliability to the market.

Professionally designed and manufactured in New Zealand, these heads are for the high volume application that demands the best. Huge capacity, quick acting, powerful action and reliable long life are just a few features to improve your throughput.

This versatile attachment suits all applications including fall and bunch for ground based crews or swing yarder grapple, windblown sites – safe for handling fallen or hung up stems, truck and trailer loading, sorting and stacking stems and woodlot thinning.
